Editorial policy

Operational Research (OR) involves the application of scientific methods to the management of complex systems of people, machinery, materials, money and information. It seeks to produce an understanding of managerial problems and to develop models which will enable the consequences of decisions to be investigated. OR methods have already had widespread application and success in many areas of business, industry and government, and their use is rapidly increasing in social systems and in the international arena. The European Journal of Operational Research (EJOR) is intended to strengthen these advances by publishing high-quality, original papers that contribute to the practice of decision making, within and beyond Europe, irrespective of whether their content describes an application or a theoretical development. A special call is made for case study papers showing OR in action in firms and other organizations. Mathematical or computer-science contributions should be capable of being used in the foreseeable future.

EJOR has regular, special and feature issues. Every issue contains a leading invited review explaining the developments in an OR topic over the past five years to the general OR reader. In addition to the other five types of contribution described in the Instructions to Authors at the end of this issue, EJOR includes (a) OR software news, (b) reviews of books published recently, (c) the bulletin of the Association of European Operational Research Societies (EURO bulletin). For further information, see the Instructions to Authors at the end of each issue. Authors of contributions are asked to read these Instructions before sending four copies to any of the editors at the address above.

Subscription information. European Journal of Operational Research (ISSN 0377-2217) is sponsored by the Association of European Operational Research Societies within IFORS and is published in six volumes (18 issues) a year. The subscription price for 1989 (Volumes 38–43) is Dfl. 1410.00 + Dfl. 162.00 p.p.h. = Dfl. 1572.00. Our p.p.h. (postage, packing and handling) charge includes surface delivery of all issues, except to subscribers in the following countries where air delivery (S.A.L.—Surface Air Lifted) is ensured: Argentina, Australia, Brazil, Canada, China, Hong Kong, India, Israel, Japan, Malaysia, Mexico, New Zealand, Pakistan, Singapore, South Africa, South Korea, Taiwan, Thailand, U.S.A. For the rest of the world airmail charges are available upon request. Reduced rates for individuals are available under certain conditions; for more information write directly to the Publisher. Claims for missing issues will be honoured free of charge within three months after the publication date of the issues. Advertising rates: 1/1, 1/2 and 1/4 page resp. Dfl. 1025.00, Dfl. 710.00 and Dfl. 500.00. Extensive ratesheet available upon request. Mail orders and inquiries to: Elsevier Science Publishers B.V., Journals Department, P.O. Box 211, 1000 AE Amsterdam, Netherlands. *Technical Editor*: Ferdinand Holsheimer, Elsevier Science Publishers, P.O. Box 1991, 1000 BZ, Amsterdam; Telefax: +20/5862726, Tel.: +20/5862446.

No responsibility is assumed by the Publisher for any injury and/or damage to persons or property as a matter of products liability, negligence or otherwise, or from any use or operation of any methods, products, instructions or ideas contained in the material herein.

Although all advertising material is expected to conform to ethical standards, inclusion in this publication does not constitute a guarantee or endorsement of the quality or value of such product or of the claims made of it by its manufacturer.

Special regulations for authors. Upon acceptance of an article by the journal, the author(s) will be asked to transfer copyright of the article to the publisher. The transfer will ensure the widest possible dissemination of information.

Submission of a paper to this journal entails the author's irrevocable and exclusive authorization of the publisher to collect any sums or considerations for copying or reproduction payable by third parties (as mentioned in article 17 paragraph 2 of the Dutch Copyright Act of 1912 and in the Royal Decree of June 20, 1974 (S. 351) pursuant to article 16b of the Dutch Copyright Act of 1912) and/or to act in or out of Court in connection therewith.

Special regulations for readers in the U.S.A. This journal has been registered with the Copyright Clearance Center, Inc. Consent is given for copying of articles for personal or internal use, or for the personal use of specific clients. This consent is given on the condition that the copier pays through the Center the per-copy fee stated in the code on the first page of each article for copying beyond that permitted by Sections 107 or 108 of the U.S. Copyright Law. The appropriate fee should be forwarded with a copy of the first page of the article to the Copyright Clearance Center, Inc., 27 Congress Street, Salem, MA 01970, U.S.A. If no code appears in an article, the author has not given broad consent to copy and permission to copy must be obtained directly from the author. All articles published prior to 1981 may be copied for a per-copy fee of US $2.25. also payable through the Center. This consent does not extend to other kinds of copying, such as for general distribution, resale, advertising and promotion purposes, or for creating new collective works. Special written permission must be obtained from the publisher for such copying.

ASSOCIATION OF EUROPEAN OPERATIONAL RESEARCH SOCIETIES (EURO)

within the International Federation of Operational Research Societies (IFORS)

EURO-goals

In the belief that the purpose of Operational Research is to improve the well-being of people by improving the relevance and effectiveness of the institutions and organisations which serve them; that it seeks to do so by means of the rational methods of science exercised by representatives of diverse disciplines working together, each supporting the others; that this co-operation which respects no boundaries between disciplines should respect no boundaries between peoples; and that the Operational Research Societies of Europe should more closely co-operate one with another to further the theory and practice of Operational Research, the European Operational Research Societies established in 1975 the Association of European Operational Research Societies (EURO) within IFORS. The members of EURO agree to grant any fully paid-up member of any signatory body all rights and privileges as are offered by them to their own members, to exchange all appropriate information, e.g. bulletins, etc., to include relevant information from other signatories in their bulletin, etc., to inform other signatories of existing working groups and the dates and locations of their meetings, to open such working groups to individual members of other signatories, to organise European conferences on Operational Research and European working groups on topics which are felt to be important by the signatories, to encourage either individually or in concert the formation of Operational Research Societies in other European countries and to give such new bodies any possible help they may require.

EURO-officers

President: Jakob Krarup, DIKU, University of Copenhagen, Universitetsparken, DK-2100, Copenhagen, Denmark
Past President: Dominique de Werra, Département de Mathématiques, EPFL, CH 1015 Ecublens-Lausanne, Switzerland
President-Elect: Jaap Spronk, Department of Finance, Erasmus University, PO Box 1738 NL-3000 DR Rotterdam, Netherlands
Vice President: Isabel Hall Themido, APDIO-CESUR, Av. Rovisco Pais, 1000 Lisboa, Portugal
Secretary: Paolo Toth, University of Bologna, I-40136 Bologna, Italy
Treasurer: Ernest A. Field, Monopolies and Mergers Commission, New Court, 48 Carey Street, London, WC 2A 2JT, UK
Vice President of IFORS: J. Pierre Brans, University of Brussels, CSOO, Pleinlaan 2, B-1050 Brussels, Belgium

EURO-members

Austria: Österreichische Gesellschaft für Operations Research (ÖGOR), c/o Institut für Ökonometrie, OR und Systemtheorie (Prof. G. Feichtinger), Technische Universität Wien, Argentinierstraße 8, A-1040 Wien
Belgium: Société Belge pour l'Application des Méthodes Scientifiques de Gestion/Belgische Vereniging voor Toepassing van Wetenschappelijke Methodes in het Bedrijfsbeheer (SOGESCI-BVWB), Eendrachtstraat 53, rue de la Concorde, B-1050 Brussels, *tel.* 02-5134580
Denmark: Danish Operations Research Society (DORS), c/o Spadille Congress Service, Sommervej 3, 3100 Hornbæk *tel.* 02-202496
Egypt: Operations Research Society of Egypt (ORSE), c/o Nasser Wahba, Centre for Middle East Management Studies, The American University in Cairo, P.O. Box 2511, Cairo

No responsibility is assumed by the Publisher for any injury and/or damage to persons or property as a matter of products liability, negligence or otherwise, or from any use or operation of any methods, products, instructions or ideas contained in the material herein.

Although all advertising material is expected to conform to ethical standards, inclusion in this publication does not constitute a guarantee or endorsement of the quality or value of such product or of the claims made of it by its manufacturer.

Submission of an article for publication entails the author's irrevocable and exclusive authorization of the publisher to collect any sums or considerations for copying or reproduction payable by third parties (as mentioned in article 17 paragraph 2 of the Dutch Copyright Act of 1912 and in the Royal Decree of June 20, 1974 (S. 351) pursuant to article 16b of the Dutch Copyright Act of 1912) and/or to act in or out of Court in connection therewith.

Special regulations for readers in the U.S.A. This journal has been registered with the Copyright Clearance Center, Inc. Consent is given for copying of articles for personal or internal use, or for the personal use of specific clients. This consent is given on the condition that the copier pays through the Center the per copy fee stated in the code on the first page of each article for copying beyond that permitted by Sections 107 or 108 of the U.S. Copyright Law. The appropriate fee should be forwarded with a copy of the first page of the article to the Copyright Clearance Center, Inc., 27 Congress Street, Salem, MA 01970. U.S.A. If no code appears in an article, the author has not given broad consent to copy and permission to copy must be obtained directly from the author. All articles published prior to 1981 may be copied for a per-copy fee of $2.25, also through the Center. This consent does not extend to other kinds of copying, such as for general distribution, resale, advertising and promotion purposes, or for creating new collective works. Special written permission must be obtained from the publisher for such copying.
